

**APPLICATION SPECIFICIALLY FOR THE
SALINE HIGH SCHOOL HORTICULTURE AWARD**

A word to the applicant:

This is not a scholarship, this is an award. If you win, it is recognition of your present achievements in horticulture, and your future plans including horticulture. We're taking into account all forms of plant growing: crops, garden specialties, and flowers, especially flowers. We won't even ask you about your grades, but you can tell us about them, if you wish: especially in your botanical or agricultural classes. We don't ask whether you are going on to further education or training. We hope you are, but if you're not, that won't hold you back. Not in this competition.

With your application, feel free to include copies of things that show your enthusiasm and proficiency with horticulture.

Name: _____

Address: _____

Telephone: _____

Grade: must be a senior about to graduate.

Tell us about your past experience and achievements in horticulture. (Feel free to attach sheets if you wish to this, or any of these questions. Include work experience as well as hobby, group, or recreational experience):

Tell us about your future plans, wishes, dreams that involve horticulture: _____

Please describe yourself in any way you think appropriate. Use examples: _____

Tell us about some specific examples of horticultural high points, **AND** low points you've experienced (Try something and failing is not necessarily a negative thing): _____

Do you express your feelings about horticulture in places or in ways other than in the garden, lab, or field? For instance, do you write about, paint or draw your experiences? _____

Tell us something you've tried involving horticulture, in the field, garden, lab that was different from anything you'd done before (if you've covered this already, say so). _____

It's hard to know what else to ask you, because you are a unique individual. If you have a thought that's budding, but the prior question just didn't get at it, then let it flower here (it's okay if this is blank):

Is there in your family a history of horticulture involvement? If so please share this. This could include your parents, grandparents, or brothers and sisters, or other relations. _____

Dated: _____
